

For more than 25 years, the Vertical Contact Toaster has been a staple in foodservice operations, building a reputation for quality and reliability around the world.

The Vertical Contact Toaster gives buns a consistent, golden brown finish which helps the sandwich stay firm and delicious. The VCT-1000 has a preset features a dial thermostat for adjusting the quality of the toast for a variety of different bread products. Available preset toast times range from 10 seconds to 28 seconds to keep up with the demand of any sized operation.

VCT-1000 Vertical Contact Toaster

## **Dual-Sided Platen**

Vertical Contact Toaster has more capacity than conventional single-sided toasters, allowing operators to quickly serve fresh products

# **Dial Temperature Thermostat**

Easily adjust the quality of the toast for a variety of different bread products

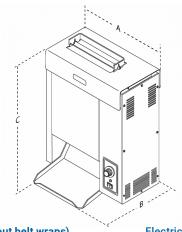

### **Small Footprint**

The upright design saves valuable counter space, allowing it to easily integrate into any operation

# **Vertical Contact Toaster | VCT-1000**

# **Features:**

- Continuously moving conveyor allows for immediate toasting
- · Separate compression adjustments for heel and crown
- Release sheets allow buns to move easily down the heated platen without sticking or slipping
- · Easy to operate and clean
- · Stainless steel construction

# VCT-1000 (without belt wraps)
